PROJECT COORDINATOR

- Through this research we would like to **understand the needs of our young people** in our organisation and what **motivates or hinders them** to contribute in the organisation. In addition, we'll be able to see how we can make up for the missing needs with **concrete solutions and steps**.
 - It will also help us analyse what is **missing in the formation process** of a young person in the organisation and how we can better **support a young person** in understanding his/her mission in life
 - The research will also help us understand why some young people have realised that contributing in the organisation is their mission while others have not yet seen their role in the organisation as part of their mission.
