

## Listening to the continents

### ASIA

Albert LOTEYRO, *Laiko Philippines*

#### **FIRST: 5 priority challenges in our reality are as follows:**

1. Recovering good politics
2. Climate change and care for our common home
3. Restoring sources of employment
4. Situations of violence and/or abuse
5. Poverty attention and eradication

May I comment on No. 5. “Poverty attention and eradication.” In my opinion it might be difficult to eradicate poverty but rather we can pay attention to Poverty but it does not mean we can totally eradicate.

#### **SECOND: My concrete proposal:**

1. To organize a working committee who will specifically address this concern of interests.
2. Organize a series of Webinar to discuss the different issues stated in the five (5) priority challenges.
3. Come up a consolidated findings and make a concrete action plan to address the five (5) priority challenges.

I hope and pray that IFCA and other organizations can facilitate in addressing these challenges. We all join together in discerning God’s divine providence and to continue to guide and inspire people to contribute for the common good.
